## Key Features:

Prairie Moon Nursery

### **Bright Blooms**

As a late bloomer, pair Riddell's goldenrod with plants that bloom earlier in the season.

K. Chayka

### **Perfect Size**

Not too tall and not too short, this plant doesn't tower over the garden, but it can still hold its own.

Prairie Moon Nursery

### **Visitors to Explore**

A crucial food source for pollinators in late season! Bees of all sorts flock to this plant on sunny autumn days.
