

# SWEET JOE-PYE WEED

(*Eutrochium purpureum*)

**NORTHWEST MICHIGAN  
INVASIVE SPECIES NETWORK**

*Protecting, enhancing, and promoting Northwest Michigan's natural communities through terrestrial invasive plant management and outreach.*

A. Barra

## Key Features:

H. Zell

### Flowers

Blossoms are tiny, but cluster together to create showy, sweet-scented blooms.

H. Zell

### Leaves

Simple leaves join around the stem in groups of 4, 5, or 6, bringing interesting texture to the garden.

Emily Cook

### Visitors to Explore

Nectar and pollen attracts many pollinators, including monarch butterflies. A great alternative to invasive butterfly bush!

**Is sweet Joe-pye weed right for your garden?**

5-7 ft tall

1-3 ft wide

**July-Sept**
