Key Features:

Shirley Sekarajasingham

Dense Foliage

As a late bloomer, pair showy goldenrod with plants that bloom earlier in the season.

K Grzesiak

Golden Boom

Spectacular mass effect. Flowers do not cause serious allergies (that's ragweed) and feed many pollinators.

Anita Gould

Visitors to Explore

Hosts the caterpillars of this pink-barred lithacodia, as well as the goldenrod soldier beetle and brown hooded owlet.
